

EU-JOINTTRAINING

IMPLEMENTATION OF EUROPEAN GUIDELINES
FOR JOINING TECHNOLOGY TRAINING

Harmonized professional qualification for
plastic joining.

LOGO?

EU-JOIN TRAINING

is a European project, co-funded by the European Commission under the Lifelong Learning Programme. The project aims to adapt and promote harmonized professional qualification, according to EWF Guidelines for plastic joining. With an industry growth of around 15% per year, the need for a common qualification system is significant.

“Overcome the lack of qualified technical personnel in manufacturing industries, by improving harmonized training and qualification courses in plastic joining”

The project started on January 2010 and will finish on December 2011.

Promote training systems that prevent duplication of already achieved qualifications, according to national regulations

THE GOALS ARE:

- To overcome the lack of qualified technical personnel in manufacturing industries, by improving harmonized training and qualification courses in plastic joining;
- To improve quality and access to training and lifelong acquisition of technological competences;
- To promote transparency of qualifications and competences in technological areas of adhesive bonding and plastic joining;
- To promote training systems that prevent duplication of already achieved qualifications, according to national regulations;
- To remove barriers obstructing the mobility of professionals in Europe in the plastic joining field;
