

ADMIRE AM Hub/Platform

TERMS AND CONDITIONS OF USE

SCOPE OF THE PROJECT | ADMIRE AM Hub/Platform was created with a three-fold purpose: i) to develop a problem-based learning environment and mindset; ii) to tackle the gap between industry/market and universities, whilst responding to compulsory demand and request for qualified people by the industry, and iii) to map resources.

This disclaimer is done under the scope of EU General Data Protection Regulation (GDPR).

CONDITIONS AGREEMENT | I declare that the information provided in the current “ADMIRE AM Hub/Platform Terms and Conditions of Use” is real, precise and complete. I commit to inform EWF about relevant change in personal /organization data. I accept the terms and conditions expressed and detailed below. *

**If the student is under 18, the parent or legal guardian formal acceptance and consent are required by the means of a signed authorisation letter.*

DATA TREATMENT | By sharing this data, the platform user consent and gives voluntary disclosure and accepts sharing the data in the platform.

The users have the right to access, update and withdraw the consent in anytime by informing EWF (ewf@ewf.be). In the case of withdrawn, data will be deleted under a period of one month.

PRIVACY POLICY STATEMENT | In the context of ADMIRE platform use,

personal/organization data are collected when:

- i) The users’ profile is created (name, email, phone);
- ii) The individual learning programme is established, monitored and assessed during the apprenticeship.

The information will be also available and shared with ADMIRE project partners. The privacy levels are the following:

- *i) Restricted for users’ personal data.
- ii) Public for Industries’ and Universities’ data, (name and contact).

EWF is committed to keep the platform data secured. Therefore, a security system is established to prevent no authorised access, avoid non authorised dissemination of data, loss or destruction. Although the users are responsible to keep their PC/electronic device appropriately protected from software harmful and / or computer virus.

The data collected in the platform will be kept until the upcoming 5 years.
